

Our User Science

Shapes the Future

2012 Users Meeting

Advanced Photon Source
Center for Nanoscale Materials
Electron Microscopy Center

Dear Potential Exhibitor,

The user communities of the Advanced Photon Source, the Center for Nanoscale Materials, and the Electron Microscopy Center invite you to participate in the 2012 APS/CNM/EMC Users Meeting, May 7-9, 2012! Our user science shapes the future!

There are many exciting events planned for this year's conference, including sponsorship opportunities for both the main meeting and the CNM's Short Courses. Additionally, the exhibitor event is again being opened to the entire Laboratory for one day of the meeting! The exhibits will run Monday, May 7 through Wednesday, May 9.

This year for the first time, all exhibitor registrations will be handled using RegOnline. Vendors can register at <http://www.regonline.com/Register/Checkin.aspx?EventID=1049604>

When you register, you'll be asked to create an ID for your company using an e-mail address and a password. **Each company will need only one ID and password to manage all attendees and other exhibit-related selections.** You'll be able to view and change your registration record if needed using your ID and password before the event.

Full details about exhibitor packages and opportunities can be found on the registration form. Space is limited, so please register early. Location requests are considered on a first-received, first-served basis. Please don't hesitate to contact me with any questions about this year's APS/CNM/EMC Users Meeting! I hope to see you there!

Best regards,
Connie Vanni
Exhibits Coordinator
